

Tucker United's Statement in Response to Governor Morrisey and Fundamental Data

Gov. Morrisey is absolutely right. Fundamental Data has repeatedly demonstrated that the people of Tucker County are not its priority. It's time to move forward without Fundamental Data.

Tucker United is committed to building long-term economic success for our community. We want to be part of a transparent, community-driven process to develop an economic development plan that serves the people who live here. That means ensuring any development project creates meaningful opportunities for our community while protecting the health, safety, and quality of life of our residents.

We look forward to working with the Governor to put a plan together that protects the health, safety, and quality of life of all our residents and community.

Gov. Morrisey's spokesman denied that Fundamental Data had any role in drafting the bill.

"HB 2014 was the Governor's bill, and its drafting was deliberately limited to the Governor's office ... "

This so called representative is fabricating this story — he should be ashamed of himself. No respectable company would allow someone who represents them to mislead the media and the public like this. I've been worried about how this company has handled itself from the beginning. They need to do much better. Shame on them.
